

Experience seamless eNote transactions with the Snapdocs eVault & ProMerit™ by SitusAMC

WAREHOUSE LENDING PLATFORM INTEGRATION ProMerit™ by SitusAMC

The Snapdocs eVault integrates with ProMerit™, SitusAMC's warehouse lending platform, enabling warehouse lenders to automate and manage eNote operations seamlessly and securely without leaving their system of record.

Pairing these two best-in-class solutions positions warehouse lenders to confidently scale eNote processes alongside growing industry adoption.

The integration allows eNote transactions to flow between ProMerit, the Snapdocs eVault, and the MERS® eRegistry, keeping all systems synchronized without manual intervention or time-consuming reconciliations. Warehouse lenders can verify eNote receipt, validate eNote data against funding requests, and automatically initiate eNote transfers upon approved ship requests—all directly within ProMerit™.

This partnership also offers robust implementation and change management support, making it easier than ever for warehouse lenders to adopt and scale eNotes while protecting valuable market share.

The Snapdocs eVault

Securely store, manage, and transfer eNotes.

Purpose-built for mortgage

The Snapdocs eVault was specifically designed for the mortgage industry. Using no third-party source code and leveraging best in class technology, we've built the eVault our industry needs for the next two decades, not the last two.

Partnership in change management

Experience eVault implementations that extend far beyond the technical including unparalleled, hands-on support for change management to help warehouse banks confidently stand up eNote processes.

Designed for scale

With automation-first design principles, eVault tasks are fully integrated into ProMerit™ workflows supporting eNote adoption at scale.

Approved by

Integration Features

Automate all manual eNote transactions by leveraging the Snapdocs eVault's robust integration ProMerit™:

Identify whether an eNote was received for a funded loan

Identify whether an eNote passed or failed auto-validation

Initiate outgoing eNote transfer to purchaser upon receipt of approved ship request

Confirm status of outgoing eNote transfers

Experience the power of automated eNote transactions with Snapdocs and ProMerit™.
