Digitally close HELOCs, without leaving your LOS

LOS INTEGRATION

MeridianLink Consumer

Unlock efficiency and reduce manual work with Snapdocs' integration with MeridianLink Consumer. Together, these platforms give lenders the ability to automatically create, manage, and complete digital closings directly from their LOS—saving time, reducing errors, and scaling volume with ease.

Automatic closing creation
With a single click, create Snapdocs closings directly from MeridianLink Consumer—pre-populated with the relevant loan and borrower data.

Seamless document transfer
Closing documents flow from MeridianLink Consumer into Snapdocs at creation, and completed, signed packages are returned directly—no manual uploads required.

Support for doc/group coding
The integration maintains lender-specific document and group codes, ensuring accurate classification and no gaps in document management.

About MeridianLink Consumer

Deliver a seamless lending experience with the industry's leading cloud-based origination platform.

- **Omnichannel**: Consolidates data from every channel—mobile, branch, call center, retail, and more—into one system.
- **Configurable**: Flexible workflows and settings adapt to any bank or digital lender.
- **Automated**: Built-in underwriting, pricing, and workflow automation reduce manual work.
- **Connected**: Integrated with core systems and hundreds of third-party providers.

About Snapdocs eClosing
