

# Deliver a best-in-class eClosing experience for every borrower

**80% fewer closing errors**

**+10 pts. borrower NPS**

**3X eClose adoption compared to industry average**

## POS INTEGRATION

### Tidalwave

Snapdocs integrates seamlessly with Tidalwave's AI-native point-of-sale (POS) platform, providing lenders with a connected, end-to-end digital closing experience within a single, familiar workflow.

Borrowers can complete their mortgage journey without leaving the Tidalwave experience, while lenders gain real-time visibility into every stage of the closing process through Snapdocs' secure, open API.

With Snapdocs, lenders can enable wet, hybrid, and hybrid with eNote closings using a consistent experience.

The integration helps lenders:

- Accelerate closings with automated workflows and real-time data exchange
- Reduce manual work, errors, and operating costs
- Deliver a seamless borrower experience
- Increase settlement adoption through Snapdocs' network of 50,000+ settlement offices

Getting started is simple. Snapdocs provides hands-on implementation, onboarding, and ongoing support to ensure a successful deployment.

### Snapdocs eClose Benefits

The award-winning eClosing platform for efficient, error-free digital closings.

- ✓ Eliminate time-intensive, error-prone tasks with AI-powered document processing and quality control
- ✓ Standardize the day-to-day for closers with one process for every closing, including wet, hybrid, hybrid with eNote, and RON
- ✓ Open platform that connects to all participants in the closing process, including the largest and most engaged network to ensure industry-leading settlement adoption
- ✓ Allow borrowers to preview documents and eSign to reduce errors and speed up the process

## Integration Features
