3X eClose adoption compared to industry average

LOS INTEGRATION

Vesta

Snapdocs integrates directly with Vesta's LOS, empowering lenders to manage every type of closing—wet, hybrid, and full eClose—in a single, streamlined workflow.

With this integration, lenders can digitally send data and documents, initiate closings, receive real-time updates, and collect executed packages—all without leaving their system of record.

Fast to implement, this integration is fully backed by Snapdocs' white-glove service.

Snapdocs eClosing

Close more loans, faster—with the industry's leading digital closing platform.

- ✓ **Designed for future-facing lenders**
Build and grow a successful eClosing strategy—trusted by hundreds of lenders achieving adoption 3X the industry average.
- ✓ **AI-powered efficiency**
Automate workflows to reduce manual, time consuming tasks that save you time and money.
- ✓ **Real-time transparency**
Gain visibility into the status of the closing for your team and all stakeholders.
- ✓ **Unmatched network adoption**
Access the industry's most connected ecosystem of settlement partners, notaries, investors, and technology providers.

Integration Features

Snapdocs' LOS integrations support end-to-end digital closings, allowing lenders to:

Initiate and manage closings

Send data & documents

Receive real-time status updates

Collect signed documents

Support for full redraws
