

eClosings Platform

One connected platform for every closing

\$500

Savings per loan

8 days

Faster to close and ship

90%+

Fewer errors with eNote & QC

+10 pts.

Increase in borrower NPS

3X

Higher eClosing adoption¹

The platform that powers 1 in 5 home lending transactions

CD BALANCING

Increase accuracy and speed to help lean teams handle more volume

Automate fee matching and keep title coordination in one place, so closers can focus on discrepancies and balance in half the time.

EARLY ACCESS

eCLOSE & eVAULT

Everything you need to close a loan with trust and clarity

One platform delivers 99%+ classification and annotation accuracy, supports every document and signing workflow across wet, hybrid, eNote, and RON closings, and stores eNotes—all with a single provider.

PERFECT COLLATERAL

Confidently automate your file review process and deliver investor grade collateral, faster

Funding QC

With 99%+ accuracy on critical-to-fund checks, more than half of reviews require no human intervention and exceptions take 80% less time and 96% less work.

Post Close QC

Eliminates manual indexing and post-close file review to deliver +65% throughput. Supporting smoother delivery, tighter timelines, improved investor outcomes, and a +15% improvement in first-pass rate.

Trailing Document Management

Snapdocs handles processing and QC so teams only focus on shipping final documents.

“The Snapdocs platform enables a more efficient closing process, provides better service to our valued customers, and positions us for future growth.”

Kevin English, COO
